

Zohaib Umer

Front-End Web Developer & Aspiring Software Engineer

umerzohaibumer@gmail.com · +92 308 2148607 · Wah Cantt, Pakistan · github.com/imzohaib-web

SUMMARY

Motivated Front-End Web Developer and BS Software Engineering student at COMSATS University (Expected 2027) with hands-on experience building responsive, user-friendly web applications using React, JavaScript, HTML5, CSS3, and Laravel. Completed a 4-month Front-End internship and delivered projects spanning e-commerce, AI-powered chatbots, and full-stack library management. Skilled at integrating REST APIs and LLM-based AI features into modern web applications. Seeking a Front-End / Web Developer internship or junior role to contribute and grow.

EXPERIENCE

Erudite Coaching Center

Aug 2024 – Dec 2024

Front-End Developer Intern — Wah Cantt, Pakistan

- Built and maintained responsive UI components using HTML5, CSS3, JavaScript, and React.
- Implemented pixel-perfect designs from mockups ensuring cross-browser and cross-device compatibility.
- Optimised page performance through asset compression and lazy-loading techniques.
- Participated in code reviews and Agile sprint cycles alongside senior developers.

PROJECTS

Library Management System

github.com/imzohaib-web

HTML5 · CSS3 · JavaScript · Laravel · MySQL

- Developed a full-stack library portal with user authentication, book inventory management, and borrowing/return tracking.
- Built RESTful backend APIs in Laravel and connected to a normalised MySQL database schema.
- Created a fully responsive front-end interface with vanilla CSS and JavaScript.

E-Commerce Website

github.com/imzohaib-web

React · JavaScript (ES6+) · CSS3 · REST APIs

- Built a complete e-commerce platform with product listings, cart management, search/filter, and checkout using React hooks and functional components.
- Integrated external REST APIs for product data and managed global state with Context API.
- Delivered mobile-first responsive design across all screen breakpoints.

AI-Powered Chatbot

github.com/imzohaib-web

React · JavaScript · LLM API (OpenAI / Anthropic) · CSS3

- Developed an interactive AI chatbot in React, integrating an LLM API for real-time conversational responses.
- Implemented streaming responses, persistent chat history, and a clean accessible UI.
- Applied prompt engineering techniques to improve response quality and relevance.

TECHNICAL SKILLS

Front-End Development:	React, JavaScript (ES6+), HTML5, CSS3, Responsive / Mobile-First Design
Frameworks & Libraries:	Laravel (basic), Bootstrap, React Context API
AI Integration:	LLM API Integration (OpenAI / Anthropic), Prompt Engineering
Programming Languages:	JavaScript, Python, Java, C++
Databases:	MySQL

Core Concepts: Data Structures, Object-Oriented Programming, REST APIs

Tools: Git / GitHub, VS Code, Apache NetBeans, Figma (basic)

Currently Exploring: TypeScript, Next.js, Tailwind CSS

EDUCATION

BS Software Engineering <i>COMSATS University Islamabad, Wah Campus</i>	<i>Expected: 2027</i>
FSC (Pre-Engineering) <i>The Scholar Science College, Wah Cantt</i>	<i>2021</i>
Matriculation <i>Sir Syed School Campus IX, Wah Cantt</i>	<i>2021</i>

CERTIFICATIONS

- Programming for Everybody (Python) – Coursera, 2025
- AI For Everyone – Coursera, 2025
- Prompt Engineering for ChatGPT – Coursera, 2025
- Career Essentials in Generative AI – LinkedIn & Microsoft, 2024
- English Access Scholarship Program – In Progress

LANGUAGES

English (Conversational) · Urdu (Fluent) · Pashto (Native)
